

# TANK DECOMMISSIONING

When you're looking for a company to support your tank farm decommissioning project, you need a contractor that offers qualified workers, the right equipment and a track record of success. Hulcher Services is the ideal turnkey solution for environmental consultants to deliver professional tank farm decommissioning and site remediation.

Hulcher's technicians have the expertise to clean, dismantle, remove and scrap tanks and associated piping. We can also remediate the site after the tanks have been removed. Our environmental experts have performed hundreds of projects in a wide range of settings and are qualified to deliver your work safely and effectively. Hulcher maintains an inventory of 250 pieces of heavy Caterpillar® equipment, including excavators, backhoes, dozers, cranes, track loaders and more. This fleet includes specialized trailers that provide a complete mobile response solution for environmental site work.

Since 1963 railroads and industry have placed their confidence in Hulcher for a wide range of services. With 38 locations in the U.S., Canada and Mexico, our company is bonded, insured and highly rated with Dunn & Bradstreet. We maintain preferred vendor arrangements with top businesses and have long-established relationships with many environmental consulting firms.
